

Used Machinery Warranty Scheme

for Groundcare Machinery

LISTER  *WILDER*®

Quality Cover

3 months warranty

106 point check

Peace of mind

This warranty scheme offers you three months cover on all warranted components on the following basis

Month 1 = **100%** of costs
Month 2 & 3 = **50%** of costs

The unit must be serviced in accordance with the manufacturer's recommended service schedule. Failure to adhere to manufacturer's recommended service schedule will invalidate the policy. The only acceptable proof of servicing is the detailed invoice which shows the date of the parts used for the service or the up to date service records.

This warranty may be invalidated in the following circumstances:

- a) If you have used the machinery to perform tasks beyond the design and strength limitations of the product.
- b) If you have carried out any modifications to the machinery yourself, which have not been approved by the manufacturer.
- c) Abnormal conditions of use.

General Conditions

You are not entitled under this warranty to recover accidental or consequential damages, including rental or replacement, loss of profit or other commercial loss.

This policy is effective within mainland UK and covers the traveling of our engineers within a 30 mile radius of any Lister Wilder branch. Beyond this distance, the travel time will be charged at our standard retail rate. Alternatively, you can make arrangements for the machine to be delivered to your nearest Lister Wilder branch but this must be done at your expense.

This warranty is given in addition to any rights you may have against ourselves and does not affect or restrict any rights you may have under the Sale of Goods Act.

This warranty is in accordance with our standard terms and conditions of business – a copy of which is available upon request.

The following parts and components of the engine and power train, as listed below, are covered during the warranty period:

Engine

Internal components including blocks, liners, cylinder head gasket, valves, pistons and piston rings, gudgeon pins, connecting rods, small and big end bearings, crankshaft, main bearings and thrust bearings, timing gears, camshaft, push rods, tappets, pumps including injection, fuel, hydraulic, oil pressure internal seals. Damage caused to other parts due to failure of the above.

Transmission

Converter assembly, pump assembly, drive plate, drive hub, input shaft, distributor, modulation valve, reverse clutch, forward clutch, shafts, gears, bearings, thrust washers, seals, dump valve assembly.

Gearbox, shuttle box, 4WD and final drive assemblies

Internal components including: gears, shafts, bearings, valves, selectors, speed shift unit components, drive plates and internal seals.

Power take-off

PTO clutch brake, bearings and gears.

Drive axles

Internal components including: crown wheel and pinion, differential and differential lock mechanism, drive shafts, reduction gears, half shaft, bearings, internal seals, centre housing, hub assembly, pinions.

Hydraulics

Pumps, motors and relief valves.

Electric/electronics

Solenoids, transmission management units, air conditioning, air compressors, radio/CD player, batteries, working lights, road lights, machine management computers, alternators, starter motors, fuses and wiring.

Components outside the engine and drive train are not covered under this warranty; they include but are not limited to the following:

Cooling system

Pumps, drive belts, hoses and tubes.

Drive clutch and steering clutches

Pressure plates, friction plates.

Gearbox, shuttle box, 4WD, final drives

Failure due to contaminants.

Brakes

Brake drums, discs, shoes/pads.

Hydraulics

Failure due to contamination, hoses, pipes.

Fuel system components

Any component failure caused by contaminated fuel will invalidate warranty cover.

Belts and filters

All belts and filters.

Chassis/loader frames

Any wearing parts or ground engaging parts, buckets, blades and linkages.

Wheels and tyres

Tyres/rims/centres.

Transport

Cost of travel is also covered if machines are within a 30 mile radius of any of our branches. Beyond this distance, travel and associated costs will be charged at our standard rate.

Cutting decks and cylinders

Cutting decks and cylinders are not covered by this warranty (with the exception of the hydraulic motors which are covered with the hydraulic system)

Air conditioning system and gas
